

International Symposium

On dynamics and ecological services
of deadwood in forest ecosystems

May 15-19, 2011
Rouyn-Noranda, (QC), Canada

(Version française ci-dessous)

The 3rd call for abstracts is ongoing.

Abstract submissions deadline is December 15, 2010.

DEADWOOD AND DYING TREES A MATTER OF LIFE AND DIVERSITY

Rouyn-Noranda Congress Center, (Québec, Canada), May 15-19, 2011

- Deadwood recruitment and dynamics in natural and managed forests;
- Recruitment and decomposition of deadwood in light of climate change;
- Salvage logging and the fate of deadwood;
- Senescent trees, snags and logs and their importance to biodiversity;
- Deadwood functions in carbon and nutrient cycles;
- Deadwood conservation and restoration in managed landscapes;
- Deadwood in the context of biomass harvesting for energy production

Invited speakers

Christophe Bouget (Cemagref, France)
Juha Siitonen (Finnish Forest Research Institute)
Daniel Vallauri (WWF, France)

Kathy Martin (University of British Columbia, Canada)
Ian Thompson (Canadian forest service)

Visit our web site at <http://deadwood2011.uqat.ca> for detailed information on guidelines for abstract submission, organising and scientific committees, venue, registration, and contacts. A post-symposium excursion is also offered. **Early registration deadline is March 26, 2011.**

The symposium is sponsored by IUFRO Division 8.02.02 – Forest biodiversity and resilience
